ASPCA Animal Poison Control Center

The ASPCA Animal Poison Control Center is the premier animal poison control center in North America. Established in 1978, the Center is the only facility of its kind staffed by twenty-five veterinarians including five board-certified veterinary toxicologists and ten certified veterinary technicians. Located in Urbana, Illinois, the specially trained staff provides assistance to pet owners and specific analysis and treatment recommendation to veterinarians pertaining to toxic chemicals and dangerous plants, products or substances 24 hours a day, 7 days a week. In 2001, the Center handled over 65,000 cases. The Center recently launched the *Veterinary Lifeline Partner Program* to make it easier for veterinarians to quickly respond to poison emergencies. In addition, the ASPCA Animal
